SOURCE:

According to information received from numerous residents of the Thuringian border area, border police units on the border have been at minimum strength since 17 June. Normal patrols have been discontinued or are conducted at less frequent intervals in most areas. Skeleton units are placing emphasis on controlling the entry into the five kilometer area inside the DDR. The controls are formed on the periphery of the five kilometer ring. Controls are presently almost non existent from the five kilometer ring to the actual border.
